

## ***Walk in the Light***

***But if we walk in the light . . . we have fellowship with one another . . .***  
– 1 John 1:7 (NIV)

As a new Christian I began to live under constant fear of previous friends. The easiest response for me was to steer clear of them. Nevertheless, one day I had no choice. It was an annual official party of the student leaders and I was one of them. With much prayer and determination I decided to go. I knew that my friends would insist me to drink wine and, like the previous years, compel me to entertain the party with filthy songs.

I went to the party and was able to abstain from drinking wine. When they insisted that I sing a song for them, with fear and yet boldness I sang “With Christ in the vessel I can smile . . .” Some danced, others clapped, and still others wondered. Nevertheless, the reward of the day was a fellow student leader, who gently pushed himself close to me and whispered, “I am also a believer.” I was filled with joy and excitement. At once, I hugged him. His company was refreshing and energizing. I learned that when we walk in the light we indeed have fellowship with one another.

***Pray:*** Dear Lord! Help me to always walk in the light and edify others in the fellowship.

### ***Thought for the Day***

It is better to be alone in the light than with crowd in the darkness.
